MONDAY, JULY 10, 1871.

The first number of Mr. DissDebars's paper, The West Virginia Monitor and Real Estate Advertiser, is at hand. It is a Jennings and Estate Present Control of the Control of Real Estate Advertiser, is at hand. It is a handsome eight-page sheet stored full of information about West Virginia and its resources. It is a valuable respository of information for those who want to buy West Virginia lands. It supplies an obvious want, cannot fail to be useful and ought to be successful.

A Fuence physician has investigated the effect of smoking on thirty-eight boys, the effect of smoking on thirty-eight boys, and the supplies and the suppli

the effect of smoking on thirty-eight boys, between the ages of nine and fifteen, who were addicted to the habit. Twentyseven presented distinct symptoms of nicotine poison. In twenty-two there were serious disorders of the circulation, indigestion, dullness of intellect, and a marked appetite for strong drinks; in three there was heart-affection; in eight decided deteriroation of blood; ten had disturbed sleep, and four had ulceration of the mucous membrane of the mouth.

CUNDURANGO, the new remedy for cancer, recently sent from Ecuador to the United States Department of State, for examination, is reported to be entirely inefficacious. The remedy used is a-decoc tion of the wood of the Cundurango tree, which is brought to this country in small bundles. Careful analysis, it is stated, shows no unusual properties in the wood, and the fluid, when prepared for use, is perfectly harmless. The bark contains an insoluble gum, but no recognized medicinal principle. The wood and the bark have been subjected to minute examination by the medical authorities in Washington, who, it is said, have pronounced them utterly worthless. Patients afflicted with cancer have also been placed under treatment with cundurango, and a record of their condition, it is said, shows that no benefit is derived from this alleged later and Thomas Browse.

On the other hand the determination of the Orangemen to prepare themselves and the intention of the Hibernian clubs to carry arms ostensibly for target shooting, makes an encounter between the two parties very perilous to the peace of the city.

The save of any national bank.

A Prominer Government official recently wrote to a friend in New York, inquiring as to the position, financially and otherwise, of a resident of that city. He received the following reply: "I am happy to inform you that Mr.— stands at the very top of respectability here, He owns a fast horse, a New York judge, and intends to steal the first railroad he sees laying around loose."

The stay of proceedings granted in the case of Foster, the car hook murderer, is severely criticised in New York. The good effect of Foster's speedy trial and conviction is altogether destroyed, and there is as great insecurity of Hife as everilt is generally believed that Judge Pratt granted the writ of error more for love intorteivithan any other reason.

They tell of a colored girl who rushed into a colored citizen's arms, at 8avanama, exclaiming, "Oh, you are my long lost brother?" She soon discovered her matake and rushed off in a confused manner, accompanied by her long lost brother's peckebook.

Taylor—B. F. Martin, A. Armstrong and We all know now that this was a falacy; that new vigor, not depletion, is what is required at the commencement of the summer solutice. As a preparation for the enervating effects of oppresive summer weather, a course of Hostetter's Stomach Bitters is highly expedient. This famous vegetable preparation has three prominer properties: It renovates, purifies, and regulate all the functions of the body. It is compose exclusively of pure vegetable productions, viz-the essential principle of Monorgabela Bye, and the most efficacions tonic and alterative roots, barks and gums known to medical botonists. Hence, it is an absolutely safe medicine, and no ncture of the Pharmacopæla can compare with the ture of the Tharmacopela can compare with it eitherin purity, or in the variety of its objects, and its comprehensive results. Happily for man-kind, the theory that it was necessary to pros-trate a patient in order 40 cure him, is forever exploded, and the true philosophical doctrine, that vigor is the great anisopoits of disease, has taken its place. Hostotter's Bitters is an invig-corant, and hence it is the proper medicine for the feeble at this most trying season of the year. Be sure that you obtain the gennine article, as there are innumerable vile limitations in the man-test. Look to the ornamontal stamp, the engrav-ed label, and the name blown into the glasse.
